Proposal Title: Fast-Track- Changes to MEd Special Education

The fast-track program allows eligible undergraduate students to take graduate courses that count toward their bachelor’s degree and a graduate program. Interested students must:
1. Have successfully completed at least 90 hours of undergraduate coursework toward their first undergraduate degree with a minimum of 24 of those hours at UTEP.
2. Have and maintain a minimum 3.30 undergraduate GPA.
Each undergraduate academic program determines which 5000-level courses will count toward the degree. Students must be advised each semester at the departmental level by both the undergraduate and graduate advisors and cleared for registration in graduate courses by the Graduate School.

The Educational Psychology and Special Services (EPSS) Department’s MEd in Special Education currently participates in the fast-track with three courses. EPSS submits the request to open the fast-track to all BA in Applied Learning and Development students as well as add four courses to the existing menu of coursework. The proposed changes will attract a greater variety of students who are interested in pursuing the MEd in Special Education or the Early Intervention Studies graduate certificate.
